KIDNEY DISEASE KILLS.

Its Victims Numbered by the Hundreds of Thousands.

Kidney diseases should be attended to at once, for almost 90 percent of our unexpected deaths of today are from that cause. Dr. David Kennedy's Favorite Remedy is the only sure cure known for diseases of the kidneys, liver, bladder and blood, rheumatism, dyspepsia, and chronic constipation. It is marvelous how it stops that pain in the back, relieves the necessity of urinating so often at night, drives away that scalding pain in passing water, corrects the bad effects of whiskey and beer, and shows its beneficial effects on the system in an incredibly short time.

George L. Smith, foreman of the Holy Manufacturing Company's Works, Lookport, N. Y., says in a recent letter: "I have used Dr. David Kennedy's Favorite Remedy with the most beneficial results. I was troubled with gravel and kidney complaint very severely, it bothered me a great deal, and have found great relief from its use, and cheerfully recommend it." All druggists sell Dr. David Kennedy's Favorite Remedy in the New 50 Cent Size and the regular \$1.00 size bottles.

Mt. Washington.

King of the rough-hewn mountains, lord of the peaks of the vanished ages, prophet of years to be, Louisa, o'er terraced hill-tops, bold in the western sky.

The dark-lured child of the forest, with terror chill in his breast, Gazed on lofty summits, lies in thy shadow at rest;

Fair-haired sons of the Saxon, from thy over the heaving wave and climb thee,—thy shadow falls on their graves.

The morning stars of Creation chant round thy head, The spheres swing in mighty chorus, marking the centuries tread.

Older than history, dateless and timeless, silent and cold in the heavens, God's altar of sombre stone.

Sun-veiled, veiled of showers, slow-drifting o'er hill and plain, Tempest clouds heavy and leaden, slant torn of winter rime the hand and the dawn.

Dark curtains of starless night drawn round thee by thy day, Veil the sun, shut thee for hours from our sight away.

But again in the hazy noon-tide, over valley and Clear cut in the golden sunlight of mornings and nights, The sunbeams gleaming marble 'gainst the pale December sky.

The peaks of the mountains rear his proud head on high, Oh, lofty and changeless emblem of perfect and peaceful truth, Unmoved by the changing seasons, strong in eternal youth.

Wind-swept, storm-beat, unaltered forever and aye, The mist-breath is gone while you gaze, the sunbeams gleaming marble 'gainst the pale December sky.

The peaks of the mountains rear his proud head on high, Oh, lofty and changeless emblem of perfect and peaceful truth, Unmoved by the changing seasons, strong in eternal youth.

The peaks of the mountains rear his proud head on high, Oh, lofty and changeless emblem of perfect and peaceful truth, Unmoved by the changing seasons, strong in eternal youth.

When Lost in the Woods.

As this is the season of excursions into the country, mountain climbing, etc., a few valuable hints are herewith reproduced from St. Nicholas, which may prove valuable to parties who design penetrating into the forest recesses of the State.

When you discover that you are lost, first stop and pull yourself together. Recall the direction in which you started from camp—whether you went north, south, east or west. You can always do that if you try. The next step is to fix the correct points. When that is done, you will be able to go in the general direction you wish.

Find a mature tree that stands apart from its fellows. Even if it is only slightly separated it will do. The bark of this tree will be harder, drier and lighter in color on the south side. On the north it will be darker, and often at the roots it will have a clump of moss or ferns.

On the south side of all evergreen trees, which oozes from wounds or knotholes will be hard and amber colored; on the north this gum is softer, gets covered with dust and is of a dirty gray. In fall or winter nests of insects are in the crevices on their south sides.

A tree which stands in the open will have its larger limbs and rough bark on the south side. You have many evergreens in your part of the country, cone bearing or coniferous trees—firs, spruces, cedars, hemlocks, pines. They ought to be good compasses. Hardwood trees—the oak, the ash, elms, hickories, mesquites, etc.—have moss and mold on the north. Leaves are smaller, tougher, lighter in color and with darker veins on the south; on the north they are longer, darker green and with lighter veins. Spiders build on the south sides. In the south tiny plants attach themselves to the north side. Cedars bend their tips to the south.

Any saved or cut stump will give you the compass points, because the eccentric ring are thicker on the south side. The heart of the stump is thus nearer to the north side. All these things are the effects of sun. Stones are bare on the south side, and if they have moss at all it will be on the north. At best, on the sunny side only a thin covering of harsh, half-dry moss will be found. On the south side of a hill the ground is noisy if you tread on it. In the north side, mosses and late flowers grow. If you are on a marsh, small bushes will give you the lesson. The leaves and limbs show the same differences. Almost all wild flowers turn their faces to the south. There are many other signs, but I reckon you will find these enough.

STATE OF OHIO, CITY OF TOLEDO, ss. FRANK J. CHENEY makes oath that he is senior partner in the firm of F. J. CHENEY & CO., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of CATARRH of the bladder cured by the use of HALL'S CATHARTIC CURE.

Sworn to before me, and subscribed in my presence, this 6th day of December, A. D. 1888. A. W. GLEASON, Notary Public.

Hall's Cathartic Cure is taken internally, and acts directly on the blood and mucous surfaces of the system. Send for testimonials, free. F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Hall's Family Pills are the best.

The Apple Crop of Maine.
There is a fair crop of commercial apples in the orchards of Maine at the present time. While the Baldwin is the leading variety grown in the greater part of the State, the McIntosh, the fruit producing sections of the State, and this variety is somewhat short in its bearing, yet it is true, nevertheless, that there is a large quantity of this popular market apple on the trees of Maine in the Baldwin sections at the present time. In sections where there was a full crop last year, and on individual trees in full bearing last year, and where reasonably good care is the practice, the Baldwin trees are well loaded with fruit. Other varieties, and especially the Spy and the Rhode Island Greening and Roxbury Russet, are generally holding a full crop. The fruit on the trees of all kinds has greatly improved of late and is now unusually large, and with three weeks yet to grow and plenty of moisture to carry it out. The fruit is also exceptionally perfect and is holding well on the trees and it will fill the barrels rapidly in the picking.

The exception to a crop of fruit is in the Northern Oxford, Franklin, Somerset, Piscataquis and Penobscot counties, where there was a full crop last year. In that belt the crop is light in the extreme and inferior in quality. But that is not the great fruit producing section of the State. In all the counties south of that belt, as indicated above, the best fruit growing section of the State, there is in sight to-day not a full crop but a fairly good yield of fruit, probably an average crop, if any one knows what an "average crop" is. So, barring any widespread destruction by wind or storm before the harvest, Maine will have a considerable stock of fine apples for the shipping trade.—Maine Farmer.

Pills, and they cured me of a severe
attack of backache. The pain was in the
region of the kidneys, and the medicine
acted so quickly that I was able to get
about in a few days. If I took it I
was always well, and at such times I
was not troubled with the backache. I
was cured, and I have had no return of

WOOL CARDING.
Through Aug., Sept. and Oct.
the wool business is in a large share
of our time and attention. We pay the
highest cash price for fleece wool. If
you have carding to be done you will do
well to have it done while the weather
is warm, we can do better work, and
wool will waste less from flying. Wool
left with G. A. Cole, Norway, will be
taken to the mill and returned without
extra charge.
The demand for butter milk at Water-
ford Creamery is so great that we feel it
our duty to advance the price to 1c per
gallon to those who do not furnish
cream to this factory. We have only
one mow left now. If you will need
one another year it will pay you to see
this one and secure the big trade that is
offered.

SNOW'S FALLS.
Linen Co.'s Protection Against Fire.
The click of the hammer as it drives
the drill or sharpens a stone, has long
been heard at Snow's Falls. An occa-
sional blast has raised from its resting
place for, who shall tell how many cen-
turies, stones which in the future are to
be the servants of man occupying a use-
ful place in solid cement and stone wall
to support a building or make a channel
to control the direction of the water at
this great natural water power, but hith-
erto only partially developed. Hun-
dreds of casks of hydraulic cement have
been used in basic construction which is
not apparent to the superficial ob-
server.
Solid and substantial, with no encour-
agement for the fire-fend, has been the
rule, and will control all future build-
ings of the Linen Manufacturing Co.
The sharp click of the hammer, as it
strikes the drill, is now giving way to
the broader sound of the carpenter's
hammer, as he frames the mill buildings,
soon to be covered with iron, now on the
ground, roof and sides.
A forty horse power steam boiler is
on the way, which, when installed, will
give steam to the great rotary boiler
bleacher, used in the company's patent-
ed process for treating of wool, and in-
cidentally giving heat to the building in
cold weather, and power to an enormous
Worthington fire pump, to be connected
with hydrants and hose for fire protec-
tion. When this pump capable of dis-
charging over fifty feet in air of several
hundred gallons of water per minute,
the automatic sprinkler in each room
connected with stand pipe and tanks
high above the roof and supplied with
water through a six inch pipe by a ves-
sel on one of the towering hills near
by and a rotary pump capacity of one
thousand gallons per minute operated by
the water wheel and shafting of the
mill, and in the company's daily opera-
tions, when these three independent
systems or sources of fire protection,
yet capable of working to the same end
in extinguishing a fire, are in operation,
we doubt if any more comprehensive
system for putting out any fire which
may occur, exists in any mill or town in
the country, than will be under the con-
trol of the Linen Manufacturing Com-
pany of Snow's Falls, Maine.

Our schoolhouse and shed have re-
cently been resingled.
James and Charles Shea of Boston
were guests at Maplecroft, a day or two
last week.
Mrs. Edna Smith is keeping house for
B. Mudge during his wife's absence
in Lynn and Philadelphia.
Mrs. Rachel Edwards of South Wood-
stock called on her friend, Carrie P.
Hammond, one day last week. She was
accompanied by her niece, Mrs. Charles
Andrews.

GRAFTON.
Pastor Goes Away.
Miss Stebbins, pastor of the Upton
church, recently called on her parishion-
ers in this town. She left last
week, to resume her studies in theologi-
cal school and all regret her departure.
It is hoped she may return to us
another year.
R. W. Kilgore and son Merton of New-
ry were in town one day recently.
Mrs. Orrin Jenkins of Rumford Falls
is visiting her parents, Mr. and Mrs.
Sewall Pratt.
A. L. Farrar has sold his farm to par-
ties in Bethel, who purchased it for
the pulp timber that there is on it.
A. F. Brooks and wife, Gilbert Tyler
and wife, C. F. Parker and his sons,
Arthur and Elmer visited the county
fair. Mr. Tyler who has attended many
fairs pronounced it a perfect success.

A Grand Success.
Mechanics Fair, that opened in Boston
on Monday the 22d inst., has proved it-
self to be all and more than was ex-
pected of it. Thousands of visitors have
thronged the doors of the Mechanics
Building since the opening of this the
first fair in four years. The words of
pleasure and commendation that have
been expressed are due not only to the
being presented, but to the many
forms of entertainment that are in-
cluded without additional charge to all vi-
sitors.
Next week among special attractions
will be the following: Phinney's United
States Band of Chicago, based upon the
famous Iowa State Band, 15 years' suc-
cess, 5000 concerts, 150,000 miles travel-
ing, played a successful engagement of 26
weeks at the World's Fair, Chicago;
Grand Reproduction of Niagara Fall;
A Scenic Display along the Southern Rail-
way; Woman's Department, under di-
rection of Woman's E. & L. Union; Lat-
est Invention in Machinery and Jim Key,
the educated horse.

Peary didn't reach the north pole but
he got within 343 miles of it. It would
perhaps, hardly be speaking within
bounds to say that these Arctic explorers
are getting warm in their search for the
pole but they are certainly getting near-
er and nearer to it.

THE NEW YORK WORLD,
THREE-A-WEEK EDITION.
Read Wherever the English Language
Is Spoken.
The Three-A-Week World was a bril-
liant success in the beginning and has
been steadily growing ever since. Time
is the test of all things, and has set its
seal of approval on the Three-A-Week
World, which is widely circulated in
every State and Territory of the Union,
and wherever there are people who can
read our mother tongue.
This paper for the coming winter and
the year 1903, will make its news ser-
vice, if possible, more extensive than
ever. All events of importance, no mat-
ter where they happen, are reported ac-
curately and promptly.
The subscriber, for only one dollar a
year, gets three papers every week and
more news and general reading than
most great dailies can furnish at five or
six times the price.
The Three-A-Week World is absolute-
ly fair in its political news. Partisan
bias is never allowed to affect its news
columns, and Democrat and Republican
alike can obtain in its pages truthful
accounts of all the great political cam-
paigns.
In addition to all the news, the Three-
A-Week World furnishes the best serial
fiction, elaboration of interest.
The Three-A-Week World's regular
subscription price is only \$1.00 per year
and this pays for 156 papers. We offer
this unequalled newspaper and Norway
ADVERTISER together one year for \$2.20.

Canton Fair.
The Canton Fair, last week, was large-
ly attended. There were probably six
thousand people on the grounds, Wed-
nesday. Music was furnished by the
Livermore Falls band. The grand cav-
cade of prize animals was pronounced
the best ever seen there. The ball game
between Cantons and Hartfords resulted
in 18 to 0 in favor of Hartfords.
At the races in the 2.24 class Raisin
Wilkes was a winner, while the second
money went to Jordan's Julian. Raisin
Wilkes captured first place in three
straight heats.
Jim Pledge's Helen won first money
in the 2.32 class, taking the lead in the
first heat and maintaining it through the
two following heats. Stoneman came in
second, while Ned Morrison got third
place.
The poultry exhibit was larger than
ever, one man alone having thirty-two
coops. Additional stalls had to be built
for brood mares and colts. There was
more stock in almost every line. This
was especially noticeable among the
oxen. West Perry Grange and Canton
Grange vied with each other in the hall
exhibit.

SOUTH ALBANY.
His Bicycle Disappeared.
Mr. Mason of Conway Center was here
last week after oxen. He came on his
bicycle and went to the Norway fair, and
while there someone was kind enough to
ride off on his wheel and left him with
no means of locomotion except Shank's
mare, by which means he started for
Conway Center with good courage.
P. P. Dresser has been picking and
selling beans.
The line storm seems to have missed
connections somewhere.
Horace Fiske of Bisbetown was here
Friday, Sept. 19, after oxen.
George Abbott has sold his oxen to
Horace Fiske of Bisbetown.
Harry Sawin is working at North Water-
ford in James Browne & Son's mill.
Merritt Sawin has swapped horses
with W. H. Kilgore of North Waterford.
Bert and Harry Bird of Biddeford re-
cently visited friends and relatives in
this place.
Henry Sawin and wife attended the
fair at Bethel, also George Abbott and
Ernest Grover.
Mrs. Ida Holt of Lynchville recently
called on her niece, Mrs. Walter Lord,
and other friends.
George Abbott and wife attended the
fair at Norway and stopped over night
with her cousin.
L. E. McFittre of East Waterford was
in the place recently and bought lambs
of Merritt Sawin also two cows of Henry
Sawin.
George Nason and wife of Freedom,
N. H., have been visiting her mother,
Mrs. L. Littlefield and her sister, Mrs.
Samuel Young.
Stephen McKee, who works for Mrs.
Ann Flint is moving his household goods
from Stoneman into the house known as
the Henry Coolidge house.
Myrtle Mason has been delivering soap
in this neighborhood. She has succeed-
ed in selling enough to entitle her to a
fine premium, a reclining chair.
There is a great complaint among far-
mers here that potatoes are rotting badly.
Corn is coming on slowly, apples
are plenty in some places and rather
scarce in others.
Samuel Young and wife are rejoicing
over the advent of a little stranger, a 9-
pound boy. Mrs. Ella Cummings is car-
ing for Mrs. Young and Lizzie Farmer is
doing the housework.
Work began last week on removing
the old Grand Trunk station in Portland
preparatory to building a new station
and office building. The officials have
offices in different parts of the yard and
the freight shed on Fore street nearest
India is used for the station. The new
station and office building will be excel-
lent and thoroughly modern in every
way.

Maine State Pomological Society.

New Electric Road Proposed.

A preliminary survey for an electric road running from the sea coast to Conway, N. H., is now being made by the Maine & New Hampshire Electric Railroad Co. The line is expected to run from Conway, N. H., through Fryeburg to Stow, Chatham and Stoneham, and eventually to Lovell.

It is presumed to be backed by the White Mountain Paper Company, which practically owns Chatham and much of the timberland in the adjoining towns. The charter of the Fryeburg Horse Railroad has come by purchase of the stock into the possession of the Maine & New Hampshire Railroad Co. The horse railroad is now operated by that company with E. E. Hastings, esq., of Fryeburg as resident manager.

Display in Hall.

It was far from being complete when we made our visit yet there was every evidence of having a good exhibit.

Mt. Cutler Grange of Hiram, Fryeburg Grange, Eagle Grange of North Chatham, N. H., and the Brownfield Grange of Fryeburg, have prepared and household goods. They have a bewildering display and it will bother the judges to say which one is best.

The following are some of the individuals that make up the display.

Fred H. Keniston, East Fryeburg, shows persimmons, carrots, beets, onions, Pink Eye potatoes.

L. L. March, five nice cabbages, bell peppers and plums.

John Richardson, Fryeburg, pumpkins, tomatoes, beets, silver skinned onions, persimmons, squashes, etc., also trace of well filled sweet corn.

Frank C. Haley, Fryeburg, shows onions, Will Trube, Fryeburg, turnips and cabbages.

Crabapples were shown by Geo. H. Walker, Fryeburg, and I. A. Andrews of Stow.

Frank Barker, Fryeburg, Early Sunrise potatoes and Burbank seedlings.

A. L. Hutchins, Center Fryeburg, Early Rose and Burbank potatoes.

M. Gould of Mt. Cutler Grange has five varieties of potatoes. I. S. Lowell, Hiram, of same Grange, four kinds of potatoes.

Mr. Gould has turnips, beets, squashes, pumpkins and Spanish peanuts.

Mr. Lowell also has beets and four kinds of beans, onions and winter wheat.

R. S. Moulton makes a good exhibit of onions, squashes, cabbages, etc.

There are a few good traces of corn. Melville Gould has three traces including a trace of pop corn.

H. N. Burbank has trace of yellow corn, also Frank Barker, A. L. Hutchins, Geo. H. Walker and John Richardson.

Stillman Durgin shows pumpkins and beets.

W. B. Wakefield carrots, persimmons, beets, sweet corn and cabbages.

There is a splendid display of fruit including all the varieties raised in this climate.

I. A. Andrews, Stow, 20 varieties winter apples.

Frank C. Haley, 2 varieties peaches, grapes and winter apples. John Richardson has fifty or more kinds of apples as well as three varieties of grapes.

Drawing of Oxen.

The drawing of oxen on Tuesday was attended with a good deal of interest.

Philip Dennett of Brownfield in the 2-year-old class of steers got first money and Chas. Jordan of Denmark, 2d. corn.

The load was drawn 10 feet 9 inches. Dennett's team and 8 inches less by the Jordan steers.

In the 3-year-old class Daniel H. Tripp of Porter got 1st, Wesley Perkins, 2d, and Grover Littlefield, 3d. The load was drawn by Tripp's team 38 feet 10 inches, Perkins' 19 feet 3 inches and Grover Littlefield's team just started the load.

In the class of oxen under 6½ feet Ernest Lewis of Porter got 1st and Wesley Perkins of Brownfield, 2d; distance drawn 100 feet 3 inches and 62 feet 4 inches respectively.

There were five entered in the class under 7 feet. Sidney Walker of Porter got 1st, his team drew the load 100 feet.

E. L. Eaton, Brownfield, 2d, 74 feet 3 inches and A. R. Hill & Son, East Brownfield, 3d, load drawn 44 feet 6 inches.

In the class over 7 feet, S. G. Eaton's oxen drew the load 33 feet 6 inches and got 1st money.

Cattle, Swine and Sheep.

Mountain View Farm of Intervale, N. H., J. L. Pendexter, proprietor, has his herd of five Jerseys here.

This is the first fair he has taken them to this season. He also has swine, sheep and poultry.

The Jersey herd consists of 21 animals—Jersey bull 3 years, Bart of Mountain View, No. 54000; Jersey cow 1 year, "Chief of Patience," No. 11855; Jersey cow 4 years old, "Pet of Mountain View," No. 108570; "Pride of Mountain View," No. 108149; Jersey cow 3 years old, "Queen of Redline 2d," No. 32815; "Lady Nemo," No. 63655. Two-year-olds, yearlings and calves make up the remainder of the herd.

Swine exhibit—9 Chesters, Ohio Improved, from L. B. Silver, Ohio; Berkshire from C. L. Hood, Berkshire.

Sheep exhibit—4 breeds, Southdowns, Oxforddowns, Leicesters, Hampshire.

Poultry—Rhode Island Reds, Barred Plymouth Rocks, White Wyandottes, Golden Wyandottes, Silver Pencilled Hamburgs, Buff Cochins.

Notes.

Kemerston, the wire twister of Norway is here and doing a good trade in his line of wire jewelry.

Dr. Drew, the magnetic healer, of Portland is here and will attend the North Waterford fair.

A. J. Nevers and Pert Nevers of Norway are here on the M. Mayway. Mr. Nevers has been here for the past dozen years. They intend taking in the World's Fair at North Waterford.

The Octopodal Pig, 3 months old, from Bowdoinham is here. It has eight well formed feet and can walk fairly well. It is owned by W. P. Cornish and is exhibited for time admission.

W. F. Dunn of West Bowdoinham has a mixture in the shape of a bovine. It is 7 months old and weighs 370 pounds. It is neither male nor female, or may be both. It is humpbacked and has no eye balls, neither has it a tail. Of course it can't see, but it manages to eat and drink, and attracts considerable attention.

John S. Barrov of Boston is marshal and rides a nice-looking horse very gracefully and does the business in first-class shape.

The 4 month old trained calves from Ponca here and give exhibits before the grand stand. They were trained and are exhibited by Mrs. Milton Varney. They perform remarkably well.

Many improvements are in evidence about the grounds. The fences have been newly painted, also the grand stand and butte. Many new high rails for teams are seen.

A show ring for the exhibition of stock and the awarding of premiums by the judges has been constructed. This is something new and is tried for the first time this year.

The sun shone on Thursday and everything moved forward to a successful fair.

17 Woodcock; 2 Partridges.

That's the Two-Day Record of Mel Sampson and His Friend, Cook-Other Game News.

Mel Sampson and Shorty Cook are thus far the champion hunters of Norway. On Monday and Tuesday of this week they brought in 17 woodcock and 2 partridges, the result of a few hours in the bush with the dog. Their bag is about the only one of importance that has been brought into town during the last week, although there has been a small army on the trail of the birds.

Kenneth Gurney and L. J. Rodenbaugh succeeded in getting a good bag of gray squirrels, seven woodcock and seven partridges, and that's about the limit of captures for several days.

George A. Stephens, the canoe builder, last week went to the Wild River region to be on hand when close time on deer expired, Wednesday. Each year he is one of the first on the hunting grounds, and it is expected that when he returns, he will have some good trophies to show his friends.

Thus far, few of the hunters have made arrangements to go to the hunting grounds until after the middle of the present month, when the law on moose has expired. There will be several parties made up to go to the Wild River region, and a few may go to Aroostook county, but most of the hunting will be done nearer home.

Every day reports come into town of large droves of deer being seen on nearby territory, and if the stories were true it would be necessary for teams to take to the woods and give the animals right of way.

Fred Oxford comes the story that a drove of deer have made their home during the summer near the Webster schoolhouse, and frequently take trips into the road and scare horses. Up in Xagger several deer have spent the summer, but since Tuesday they have not been seen. Horse Hill has been a feeding ground for a doe during the summer, and two bucks have summered on the Bethel road in Greenwood. It is not unlikely that persons taking the trouble to hunt these animals will find the story of their disappearance, now that the law is off.

EAST SUMMER.

Post-office Changed.

The post-office will be changed sometime this week into the new house which A. L. Palmer has built. He will soon move his family there.

A. H. Harlow and wife are in Harrison with Mr. H. H. H. H.

A. J. Barry is repairing the buildings owned by Mrs. Roanna Robinson.

Geo. Goss has lately shingled his stable and all made other repairs on his buildings.

The large boiler which the Minot Packing Co. have just placed in their plant here is found to be defective and will probably be sent to Portland for repairs.

The Telephone Co. are setting new and larger poles on which to place the Trunk Line from West Sumner to Canton. Several instruments have lately been run here. The company seem to be in a very prosperous condition. Their stock is in good demand.

Fryeburg.

Alice Evans has returned to Boston.

Clem Towle is putting an addition on his house.

Maurice Pillsbury is spending a short vacation with his mother.

Fred Fife has started on the road again for the B. W. Burbank Seed Company.

At last work has begun on the schoolhouse. John Osgood is doing the stone work and the wood work is to be done by Victor Emerson of Fryeburg Center.

Rev. Francis J. Marsh, Supr. of the Missionary work of the Congregational Sunday School and Publishing Society, occupied the pulpit here, last Sunday morning and evening, in the interests of the above named society. We were somewhat surprised to learn from him that there are in our fair land, 20 million of children between the ages of 5 and 16 who have not the privilege of attending Sunday school.

SWEDEN.

Some few have commenced to pick their apples.

John A. Smith visited his father-in-law last week. Has gone to Biddeford for a few days.

Our school in Black district has been in session two weeks, taught by Dora Corliss. Every prospect of a good school.

Nat Thompson of Bridgton found a hive of bees in a tree on the side of Black Mountain and marking the tree. In a few days he came over to get the honey, but some thief had sawed the tree down and taken the honey.

CARD OF THANKS.

For the kindly aid given us during a long illness, for words of sympathy and comfort, for the many beautiful flowers I express my deepest gratitude. A. MARIA HASTINGS, Bethel, Sept. 26, 1902.

BETHEL.

A Painful Accident.

Gilman Bean met with a painful accident, Saturday afternoon, while backing his team out of the stable he slipped on the steep platform and fell, and at the same time the horse slipped and fell on him. Mr. Bean's shoulder was dislocated and he received other injuries.

Mrs. Nellie Stevens of Portland was the guest of Mrs. Clara Hastings a few days the past week.

Melinda and Hattie Wiley are visiting their brother, Albert Wiley, also their sister, Mrs. David Chandler.

Walter Nash and wife of Omaha, Nebraska, a relative of Mrs. Ella Hatch, made her a short visit, Wednesday.

All Stuffed Up.

That's the condition of many sufferers from catarrh, especially in the morning. Great difficulty is experienced in clearing the head and throat.

No wonder catarrh causes headache, impairs the taste, smell and hearing, pollutes the breath, deranges the stomach and affects the appetite.

To cure catarrh, treatment must be constitutional—alterative and tonic.

"I was afflicted with catarrh. I took medicines of different kinds, giving me a fair trial, but gradually grew worse until I could hardly hear, taste or smell. I then concluded to try Hood's Sarsaparilla, and after taking five bottles I was cured and have not had any return of the disease since." EUGENE FORBES, Lebanon, Kan.

Hood's Sarsaparilla.

Cures catarrh—it soothes and strengthens the mucous membrane and builds up the whole system.

CASCO.

Corn Factory Running Full Blast.

The corn shelling of J. N. Eastman at the village is running full blast, putting up corn, beans and apples. The corn is a good quality in this section.

Mrs. Frank Curtis of the village is still quite poorly.

NORWAY AND VICINITY

A Norway Boy Appreciated.

The following item is going the rounds of the Maine press:

Manager Harry Nevers of the Manchester baseball team has taken his entire aggregation of ball tossers through Maine to the Province for a series of games. As is well known Manchester won the championship of the New England League for the season just closed and the team is a remarkably strong one for a minor league. Much of the credit for the season's fine work is due to Mr. Nevers, who is a Norway boy and won his first distinction as a ball player upon the Bowdoin College nine and later with the Lewiston Club when Lewiston was represented in the New England League and stood well up the list. The team returned, this week, from their trip and will be disbanded soon.

Robert E. Walker and wife spent Sunday with his grandfather in Otsfield.

Mrs. W. F. Jones and children, who have been away most of the summer, returned Thursday.

Frank E. Walker returned, Wednesday, to South Deerfield, Mass., where his parents reside.

Will Cherry went to Bemis, Monday, where he has a job firing on C. B. Cummings & Sons' steamer.

Mrs. Herbert Cole and daughter Merle of Lynn, Mass., are spending a week here visiting Mrs. C. A. Young.

Mrs. C. F. Ridlon is visited by her mother, Mrs. O. H. Clough of Saco, and her sister, Mrs. G. H. Stow, and little son of Boston, Mass.

Elfanah Greene from Norway Center went, last Friday, on an emergency call to enter the nurse's training school at the Central Maine General Hospital.

At the Baptist State Convention, Rev. W. E. Lombard of Camden reported for the committee on "State of Religion." Mr. Lombard and family have visited the past week in Norway.

Calvin Kneeland, who has been seriously ill, is much improved and will be able to be out in a few days. He returned from Bemis some three weeks ago and has had typhoid fever.

Wallace Carter of Lynn, Mass., has made a two weeks' vacation at his home here. He came a little earlier, this year, than is his custom because of the "slackness" of work in his shop at this time.

Master Bartholomew Judkins has caught about seven hundred fish this summer. He is probably the most successful fisherman in this vicinity. His home is on "the island" near Crockett's bridge.

Letter to Stephen B. Cummings,

Norway, Me.

Dear Sir: Perhaps you "won't have anything to do with Mixed Paints." We don't blame you; but Devoe lead and zinc is not a Mixed Paint, there is twice as much paint in a gallon of it as there is in a gallon of some of the Mixed Paints. N. Avery, Delhi, New York, owns two houses exactly alike—Painted one with Mixed Paint—took 12 gallons. Painted the other with Devoe; bought 12 gallons—had six gallons left.

It has taken a great many years to find out the best; and it takes a lot of machinery to grind it properly. More than 3,000 years, men painted with lead, and more than 200 with lead and zinc. About 50 years ago, they began to use zinc.

All painters know lead and oil; most painters know lead and oil with zinc mixed in—it improves their paint; wears longer; doesn't crack or powder off so soon. One-third more zinc than lead is used in this country.

But painters don't know how much zinc to put in; and zinc is hard to mix—needs grinding in—and they can't grind it in.

Still, nobody uses lead without zinc, who knows his business.

Yours truly,

F. W. Devoe & Co.

BRYANT'S POND.

Through the White Mountains.

Mrs. A. J. Wilson, Jr., and her two children, Leigh and Wade, Mrs. A. B. Atwood and Mrs. Edward Thompson started, Wednesday morning, for a brief trip through the White Mountains. They visited Bethlehem, Franconia, Lisbon, and Littleton, N. H., and enjoyed many pleasant drives over the pretty roads in the mountains, which are looking their prettiest at this time of the year, when all nature is robed in her gold and brown, but as duty always limits our pleasures and calls us back to our different spheres, the goodbyes were said and the trains moved out of the depot at Littleton, N. H., on Monday morning, Sept. 22, when Mrs. Wilson started for her home in West Virginia, Mrs. Atwood for her home in New York and Mrs. Thompson for her home in Bryant's Pond.

Mrs. Wilson and Mrs. Atwood spent some six weeks here and formed many very pleasant acquaintances and carried away many pleasant recollections of the old Pine Tree State.

Genie Hutchins of Portland and Elsie Wade are the guests of Mrs. Josiah Moody.

Evergreen Assembly, No. 44, Pythian Sisterhood, held their usual weekly meeting in Grange hall on the evening of Sept. 22. Work Inspector Mrs. Cole of Portland, was present. After a thorough review of the work of Pythianism meeting closed in due form. Cake and coffee were served and a pleasant time enjoyed by all.

OXFORD.

Big Things.

H. L. Chandler picked a rose Sept. 8, that measured 16½ inches in circumference. Mrs. Rose Crocker had a pear, Clapps Favorite, whose length from blow to stem was 5½ inches and greatest circumference, 14½ inches. Three potatoes of the Everett variety were dug on the S. D. Edwards' farm whose aggregate weight was 9½.

Annie E. Edwards of Oxford has been granted a pension, \$8.

E. L. Burns and son Granville expect soon to go to their camp near the South arm of Richardson Lake.

Our Musicians as Minstrels.

Society People Participate in and Enjoy Them—Given Under Auspices of Universalist Society.

The much advertised Society Minstrels, under the auspices of the Universalist society, was placed upon the stage Friday evening. There was a smaller attendance than was hoped for, but a fair margin of profit was realized.

The exercises went off with a degree of smoothness unusual in an amateur minstrel show, and showed an understanding of the business by the manager, L. J. Rodenbaugh and wife of Boston.

In the grand circle there were thirty-five people, including the literateur and the ends. Kenneth Gurney, Mrs. O. S. Akers and Mark Pride rattled the bones, and Fred Brock upon M. W. Sampson and Verne Aldrich shook the tambourines. The jokes were many and, as those things go, novel, and the local hits were well taken. Perhaps the most original and striking feature was Mrs. Sampson's wireless telephone, by which she talked with the infernal and supernatural regions.

Songs were introduced by James Dunn, Myrtle French, Mrs. B. F. Bradbury, Marguerite Finney, Rose Monahan and Kenneth Gurney, and a well-executed movement duet by Lotta Richardson and Nelson McAllister.

The most amusing feature was the Pickaninies' Frolic. There were seven little boys and girls. Their dance was ragtime and their costumes ragbag. Their march was heartily applauded.

A minstrel show, a coon show or most any show now-a-days would not be complete without a cake walk, and this show had one. There were five couples, and they went through nearly every evolution that the mind could devise, and the human spinal column allow. The applause of the audience finally gave the cake to the last couple to parade.

Virginia Sargent played the accompaniments in a dashing, brilliant style that added to the precision of the entertainment and won applause.

For two weeks the performers had been under the tutelage of Mr. and Mrs. Rodenbaugh. The program said that jokes would be explained upon application, but no one found it necessary to send requests to the stage for coaching when the time came to laugh, so fresh and crisp were the dialogues. Mr. Rodenbaugh was interlocutor. Bill Green was master of ceremonies, and performed the duties of his exalted station in a highly satisfactory manner.

Grand Opening Overture.....Entire Chorus
My Drowsy Babe.....Mrs. Bradbury
Lady Africa.....Myrtle French
Solo-selected.....James Dunn
Blooming Liza.....Marguerite Finney
Solo-selected.....Rose Monahan
My Tiger Lily.....Nelson McAllister
The Love-Love.....Kenneth Gurney
Finale—Honey-moon March.....Entire Chorus

The windup of the affair, a cake walk, was participated in by the following: Josephus Morningglory and Miss Oleander Dewey, Alphonse Aginaldo and Miss Alexandria Coughdrop, Remus Black and Miss Manda Peachblossom, George Whitewash Hobson and Miss Ambrosia Snow.

The everyday identity of the aforesaid mentioned was not disclosed, but when the winning couple was announced the cake was handed to James Favor and wife, who had made steps and contortions that would have made a cakewalk or of the real color lot as if he had swallowed a golf ball.

It is understood that the show will be repeated in the near future.

Reason Why Norway

Is Not a Summer Resort.

EDITOR ADVERTISER.—I am very much interested in letters from Mark Smith published from time to time in the ADVERTISER. Mark means well, but I am afraid he is up against it when he tries to wake up the people of Norway and induce them to get up early in the morning to get breakfast for hungry tourists.

The whole secret can be explained in a very few words—the people of Norway have money enough—that is, one can start from the head of Maine street, and from there to the lower end, you will find nothing but prosperous merchants, and those not in trade have money enough without bothering with tourists. I used to lay awake nights when a resident of Norway figuring how I could induce the people to care for summer boarders. Then again the farmers are prosperous, otherwise they might be induced to take boarders.

There is not any question of the attractions—beautiful drives, the lake and a hearty welcome—but when one tries to enlarge on the daily cares of the average Norwegianian they will find trouble.

I do not wish to discourage friend Smith, and I sincerely hope that he may be the means of a large increase in summer travel to Norway and vicinity, however without the cooperation of the people or the formation of a board interested in bringing people, or rather arranging for the care of the tourist, I am afraid Mark will have to build a log cabin for his friends on the banks of the Penness-ewassee.

Autumn Change of Time.
The change of time, G. T. R., went into effect, Sunday morning. The only changes are the early morning train to Portland which goes at 5.25 a. m., the afternoon at Portland which goes at 4.30 p. m., and the night express to Montreal which leaves at 8.40 p. m.

Miss Nettie Blackmore, Minneapolis, tells how any young woman may be permanently cured of monthly pains by taking Lydia E. Pinkham's Vegetable Compound.

"YOUNG WOMEN:—I had frequent headaches of a severe nature, dark spots before my eyes, and at my menstrual periods I suffered untold agony. A member of the lodge advised me to try Lydia E. Pinkham's Vegetable Compound, but I only scorned good advice and felt that my case was hopeless, but she kept at me until I bought a bottle and started taking it. I soon had the best reason in the world to change my opinion of the medicine, as each day my health improved, and finally I was entirely without pain at my menstruation periods. I am most grateful."—NETTIE BLACKMORE, 28 Central Ave., Minneapolis, Minn.

Painful Periods

are quickly and permanently overcome by Lydia E. Pinkham's Vegetable Compound. The above letter is only one of hundreds of thousands which prove this statement to be a fact. Menstruation is a severe strain on a woman's vitality,—if it is painful something is wrong. Don't take narcotics to deaden the pain, but remove the cause—perhaps it is caused by irregularity or womb displacement, or the development of a tumor. Whatever it is, Lydia E. Pinkham's Vegetable Compound is guaranteed to cure it.

If there is anything about your case about which you would like special advice, write freely to Mrs. Pinkham. No man will see your letter. She can surely help you, for no person in America has such a wide experience in treating female ills as she has had. She has helped hundreds of thousands of women back to health. Her address is Lynn, Mass., and her advice is free. You are very foolish if you do not accept her kind invitation.

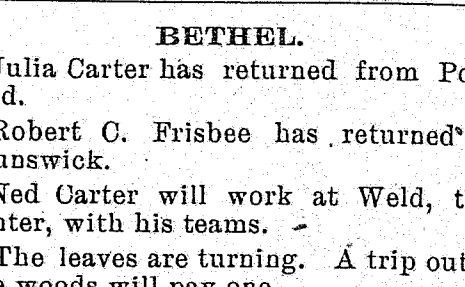

Details of Another Case.

"DEAR MRS. PINKHAM:—Ignorance and carelessness is the cause of most of the sufferings of women. I believe that if we properly understood the laws of health we would all be well but if the sick women only knew the truth about Lydia E. Pinkham's Vegetable Compound, they would be saved much suffering and would soon be cured.

"I used it for five months for a local difficulty which had troubled me for years, and for which I had spent hundreds of dollars in the vain endeavor to rectify. My life forces were being sapped, and I was daily losing my vitality.

"Lydia E. Pinkham's Vegetable Compound cured me completely, and I am now enjoying the best of health, and am most grateful, and only too pleased to endorse such a great remedy."—Miss JENNIE L. EDWARDS, 604 H St., N. W., Washington, D. C.

Mrs. Pinkham, whose address is Lynn, Mass., will answer cheerfully and without cost all letters addressed to her by sick women.

IF OUR SHOES COULD TALK

they couldn't extend a more pressing invitation to the feet than they do now:

Their appearance makes one feel that the feet will never be stylishly and comfortably shod until put in these shoes.

While conforming to the shape of the foot they are absolutely correct in style. And there's more wear in these

SHOES

Than their appearance or their price would lead one to suppose.

BUCKFIELD.

Buckfield Crossing.

A hearing was held, Wednesday, before the commissioners on a petition from the selectmen of Buckfield asking for some provision of the state from the Portland & Humpford Falls Railroad Company on the railroad crossings in Buckfield. The petitioners were represented by T. S. Bridgman, esq., and the railroad by its attorney, Geo. D. Bishop. The testimony of various citizens was to the effect that the trains were habitually run over these crossings at a speed of from 15 to 30 miles an hour, while legal requirements restrict the speed to six miles. Also that long freight trains frequently blocked both crossings from 15 to 30 minutes, and relief from the annoyance and danger was sought in pursuance of a vote of the town at its last annual meeting. The commissioners took the matter under advisement to report later.

An Arrest and the Results.

As a result of the arrest of Geo. McKenney for single sale, as before reported, the evidence went to show that the door of the station agent at Hebron. Then the agent was called to appear before Justice Parsons to answer to a single sale. Geo. McKenney was summoned as evidence. The agent appeared, where Geo. McKenney's Echo answers, where? No trial and the respondent goes free. Later—McKenney returns to answer.
